Professional Experience

Systems Developer Intern

Jan 2026 – Mar 2026 | Makati City

Neuronet AI Innovations

- Developed a full-stack web application for hotel operations including real-time room service requests, inventory management, and AI-powered guest assistance using Gemini API.
- Deployed anonymous guest session feature via room-based QR code, improving ease of use while maintaining session security.
- Integrated PostgreSQL and developed a RAG-based pipeline with pgvector for improved Gemini context.
- Architected and deployed internal multi-team linux samba file server with authentication, improving productivity by 40%.

Skills

Programming Languages: Python, JavaScript, SQL

Frameworks: Flask, Django, React.js, React Native

Databases: MySQL, PostgreSQL

Dev Tools: VS Code, Git, Github, Linux, Ubuntu, Shell Scripting

Technologies: Ollama, Firebase, Power BI, Figma, AWS EC2

Projects

Spurs 2025-26 Turnaround Analysis

Jul 2026 – Present

Python, pandas, scikit-learn, matplotlib, jupyter notebook

- Built a data pipeline to analyze how the Spurs reached the 2026 NBA Finals after missing the playoffs prior.
- Engineered 20+ features including offensive/defensive ratings, usage rate, and rolling performance metrics from NBA game logs.
- Quantified Victor Wembanyama's impact using Ridge regression with chronological train/test splits.

IoT-based Flood Monitoring System - Thesis Project

May 2025 – Dec 2025

Python/Flask, scikit-learn, React, Firebase, M360, open-meteo

- Architected a real-time web dashboard for flood monitoring and admin emergency response.
- Integrated two-way SMS API blasting and GPS location-sharing to alert barangay residents.
- Implemented a logistic regression model receiving live data and weekly retraining cycles, achieving 88% accuracy.

Smartbites: AI Food Recommendation App

Feb 2025 – May 2025

Python/Django, React Native, Expo, MySQL, Ollama (Gemma3:4b)

- Designed a mobile application that recommends food recipes according to user dietary preferences, budget, and allergies, with an image recognition feature.
- Integrated a locally-hosted Gemma3 LLM via Ollama for personalized recommendations.
- Implemented Django user authentication for secure account management.

Education

**Bachelor of Science in Computer Science with
Specialization in Data Science**

Sep 2022 – Jun 2026

University of Perpetual Help System DALTA – Molino | Cum Laude

Certificates and Training

Certiport Data Analytics  — March, 2026

Certiport Python IT Specialist  — December, 2024
